PETITION PURSUANT TO 37 CFR 1.182
FOR REINSTATEMENT OF PRIORITY DATE

Commissioner for Patents
Alexandria, VA 22313-1450

Dear Sir,

Applicants hereby file this petition pursuant to 37 CFR 1.182 to reinstate the priority date of the present specification, with the exception of page 14, which was filed on April 26, 2002 and has the filing date thereof. In the alternative, Applicants respectfully request that page 14 be removed from the present specification and the remaining pages of the specification be given the benefit of the priority date, November 1, 2000.

The present patent application was filed October 30, 2001, on which date priority to provisional application Serial No. 60/244850, filed November 1, 2000, was properly claimed in the application papers. A copy of the Declaration of inventors filed with the original application on October 30, 2001 containing the priority claim is attached hereto as Exhibit A.

On March 26, 2002 Applicants received a Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures (hereinafter "Notice"), which informed the Applicants that page 14 of the specification appeared to have been omitted from the specification when the application was filed. Upon an inspection of the application file, and despite the Applicants' receipt of a stamped return postcard from the USPTO (a copy of which is included herein as Exhibit B) indicating that all 26 pages of specification, 6 pages of claims and 1 page of abstract had been received by the USPTO, Applicants became convinced that page 14 had inadvertently been omitted in the original filing.

Accordingly, on April 26, 2002 Applicants filed a communication containing page 14 of the specification along with a Supplemental Declaration and a petition under 37 CFR 1.182. In this petition the Applicants requested the entry of page 14 into the already-filed specification, and requested that only page 14 be given the filing date of the Petition (April 26, 2002). This would result in the remainder of the specification retaining the priority date of November 1, 2000. The missing page and a Supplemental Declaration accompanied the April 26, 2001 petition, a copy of which is included herein as Exhibit C.

On August 14, 2002 a Decision on Petition was mailed in which the Decision stated: "This is a decision on the petition filed April 26, 2002 under 37 CFR 1.182 to permit entry of page 14 of the specification. The Petition is **granted.**"

However, the petition was not granted insofar as Applicants never requested or agreed to abandon the filing date of the present application or the priority claimed to the provisional patent application. This is clear from a review of the April 26, 2002 petition, in which Applicants asked only that page 14 be entered and given the later filing date.

Applicants therefore respectfully petition the USPTO to treat this application in a manner similar to a continuation-in-part application is treated. That is, Applicants request that page 14 (and all subject matter relying solely on page 14 for disclosure pursuant to 35 USC §112) be given a priority date of April 26, 2002, the date of its filing. All remaining subject matter present in this application should have restored the priority date to which it would otherwise be entitled under 35 USC §§119(e) and 120: the filing date of the first application in which it was disclosed in the manner required by 35 USC §112; either the November 1, 2000 date of the 60/244850 provisional application or the October 30, 2001 date of the present non-provisional application. Applicants are willing to amend the first paragraph of the specification to make a specific reference to the date that page 14 was filed.

In the event that this petition is not granted, then Applicants alternatively petition the Patent and Trademark Office to permit the Applicants to delete page 14 from the specification

and to restore the priority date of the amended patent application as set forth in the first paragraph of the specification whereby this application, filed October 30, 2000, claims priority pursuant to 35 USC §119(e) to provisional patent application Serial No. 60/244850.

Applicants hereby authorize the Director to use Deposit Account 01-0885 for the payment of the petition fee pursuant to 1.17(h) and any other fee that may be due in connection with this application.

Respectfully submitted,

PETITION PURSUANT TO 37 CFR 1.182

*Methods and Compositions for
Treatment of Ocular
Neovascularization
and Neural Injury*

Assistant Commissioner for Patents
Washington D.C. 20231

The Notice to Comply with the Requirements for Patent Applications containing Nucleotide Sequences contained a notification that page 14 of the specification appeared to have been omitted. Upon inspection of the file, Applicants agree that this page of the specification was inadvertently not included when the non-provisional patent application was filed.

Accordingly, Applicants hereby petition the Commissioner to permit the entry of page 14 of the specification, filed with this Petition. Applicants also include a Supplemental Declaration of Inventors making reference to page 14. Applicants request that page 14 of the specification be given the filing date of this communication. Applicants include herewith a copy of the Notice to Comply.

Applicants hereby authorize the use of our Deposit Account 01-0885 for the payment of the petition fee, thought to be \$130.00, as well as any other fee properly due in connection with this communication.

Respectfully submitted,
